Equity Pre-IPO Investments Ltd

Grant of options

On 30 May 2007, Kenneth West, a member of the Investment Advisory Panel of Equity Pre-IPO Investments Limited (the 'Company'), was granted options exercisable over 50,000 ordinary shares of 1p each ('Ordinary Shares') under the discretionary Share Option Plan. In the Company's Admission Document of 18 February 2005, it was stated that Kenneth West would be granted options under a share option plan every six months (commencing on Admission) to subscribe for such number of Ordinary Shares as shall be considered appropriate by the Board. No options have been granted to date and this award fulfils this requirement for the period from the date of admission to trading on AIM to 24 August 2007.

The options are exercisable at a price of 26 pence per Ordinary Share (being the closing middle market quotation on the day of the date of grant). These options will not be exercisable until after six months following the date of this grant and will thereafter remain exercisable for a period of 10 years.

Following the grants of these options, Kenneth West's holding in the Company is unchanged at nil Ordinary Shares. This is the first grant of options by the Company.
